

Name _____

Operation: Road kill

It is not uncommon to see deer lying dead on the side of the road. The number of auto accidents involving deer has been steadily increasing. The DNR needs your help to figure out a way to reduce the number of auto/deer accidents.

Complete the first three problem solving steps to come up with the best possible solution for this problem.

1. Define the Problem (5 points)
2. Generate Alternative Solutions (10 points)
(1 point for every solution)
3. Choose the Best Solution (5 points)
4. Why do you feel this is the best solution? (5 points)
